

This request is used for F-1 and J-1 international students who require additional time for the completion of their program of study. In order to properly maintain their nonimmigrant status, they must submit this extension request before the current program end date on their Form I-20/DS-2019.

U.S. federal regulations state that students need to complete their program of study by the program end date on their Form I-20/DS-2019. The end date on the Form I-20/DS-2019 is established by the College to reflect the average length of time it should take a student to complete the program requirements. In order to qualify for a program extension, students must show that they have continually maintained status and the extension is necessary for compelling academic or medical reasons, as outlined on the OGS [website](#).

While it is not a violation of status, students should practice caution when requesting multiple program extensions within the same educational level, as this could be questioned while applying for future immigration benefits.

The student must complete Part I on the Program Extension Request and have Part II & III completed by their academic department.

1. Once the student and academic department have completed this form, the student will need to submit the OGS Program Extension e-form request available [here](#). The e-form will require students to upload this completed and signed form as well as financial documents. The financial documents are required to verify that students have access to funds which will cover the expenses they will incur during the additional term(s) needed to complete their program.
2. The extension of the Form I-20 or DS-2019 is not guaranteed and will depend on eligibility. If a student request is incomplete, it will be denied and they will be required to resubmit the e-form.

Important: The program extension request must be submitted through the e-form request **at least 30 days prior to your current I-20 or DS-2019 end date.**

Part I: To be completed by Student
